

## ART & WINE

Since the 2021 vintage, **the giant boots** by the artist Lilian Bourgeat – the venue’s emblem – appear on the label.

### THE QUOTE FOR THE 2022 VINTAGE

Since its 2000 vintage, Chasse-Spleen has placed a quote on the frontispiece of its label. Since 2006, we have mainly focused on contemporary authors. For the 2022 vintage, we are proud to announce the contribution of **Michel Houellebecq**.

*“There is, in the middle of time,  
The possibility of an island.”*

## THE COMMITMENT

Château Chasse-Spleen is committed to a **Corporate Social Responsibility approach** whose culmination is its legal transformation into a French **“Société à Mission”** (a company with set social and environmental purposes and specific sustainability goals). Its Corporate Social Responsibility mission is integrated in its statutes and our potential non-compliance with this is legally enforceable.

### CORPORATE SOCIAL RESPONSIBILITY

Our position as a Société à Mission requires us to develop this approach by selecting our suppliers according to their societal and environmental values. That is why we now propose cardboard crates for packs of 6, to replace those in wood that are heavier, and that therefore have more impact in the reduction of the carbon footprint. Moreover, in France, **cardboard has a recycling rate of 93%**, versus 13% for wood.

### FROM WORDS TO DEEDS

To favour waste reduction and carbon cost, a **discount** for orders made in flat boxes of 6 will be of **0,25 centimes a piece**.

## EXPORT DEVELOPEMENT

Château Chasse-Spleen has decided to hire Jules Couleau to promote its wines on the American continent, traveling 8 times a year throughout the United States.

Chasse-Spleen wants to preserve its strong French and European implementation whilst also making the most of its extra volume of wine to strengthen its presence with major exports.
